Resale

- Concerns about rising mortgage rates enticed buyers into the market - pushing existing home sales up before moderating by the fourth quarter of 2013.
- Relatively less expensive existing homes will regain some sales momentum versus new homes in 2014 and 2015.
- While improving job prospects will support housing demand, rising mortgage carrying costs will dampen demand by the second half of 2014.
- Owing to economic uncertainty, Ontario sales will range between 186,600 to 212,600 transactions this year.

[1] The outlook is subject to uncertainty. Although point forecasts are presented in this publication, CMHC also presents forecast ranges and risks where appropriate. The forecasts and historical data included in this document reflect information available as of January 22, 2014.

Canada

Housing market intelligence you can count on

CMHC SCHL
HOME TO CANADIANS

Resale Prices

- Ontario resale prices grew above the general rate of inflation in recent years.
- Growth in home prices has moderated since 2010 with growth expected to converge closer to income growth over forecast horizon.
- A balanced market suggests less upward pressure on Ontario home prices in 2014/15.
- Prices for lower density housing will grow relatively faster given more favorable demand-supply conditions.

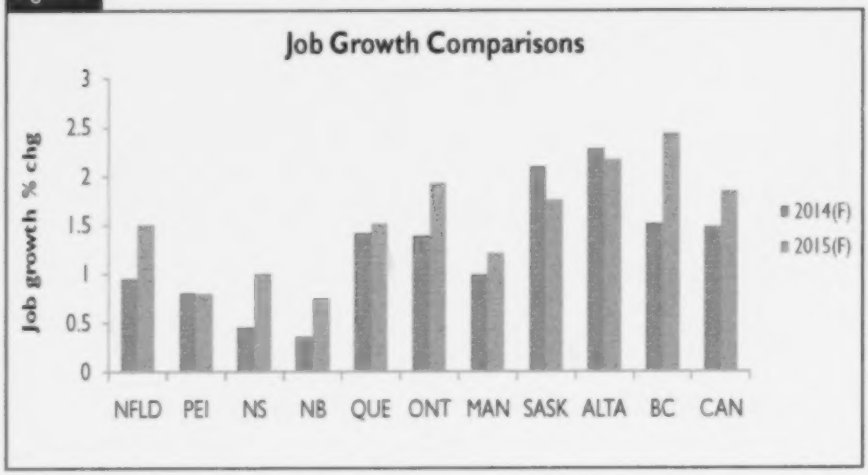
Housing Starts

- After slowing in 2013, starts will ease further to 60,200 and 58,300 units in 2014 and 2015 respectively.
- Higher density housing, particularly semi and row construction, will partially offset slowing apartment construction over the forecast horizon.
- Low inventories of new and existing single detached homes means detached construction will still hold up better than apartments over the forecast horizon.
- Owing to economic uncertainty, starts will range between 56,700 to 64,200 units in 2014.

Economic Forecasts

- Ontario's economy fell short of growth in the rest of Canada in 2013 but by 2014 and 2015 will gain ground against other provinces.
- A rotation of economic momentum away from emerging economies towards the US will support Ontario's export sector and business sentiment.
- South Western and selected Northern Ontario economies will benefit most from improving goods sector performance.
- Finance, Retail Trade and Public Administration sectors will contribute less growth to the Toronto and Ottawa economies.

Figure 3

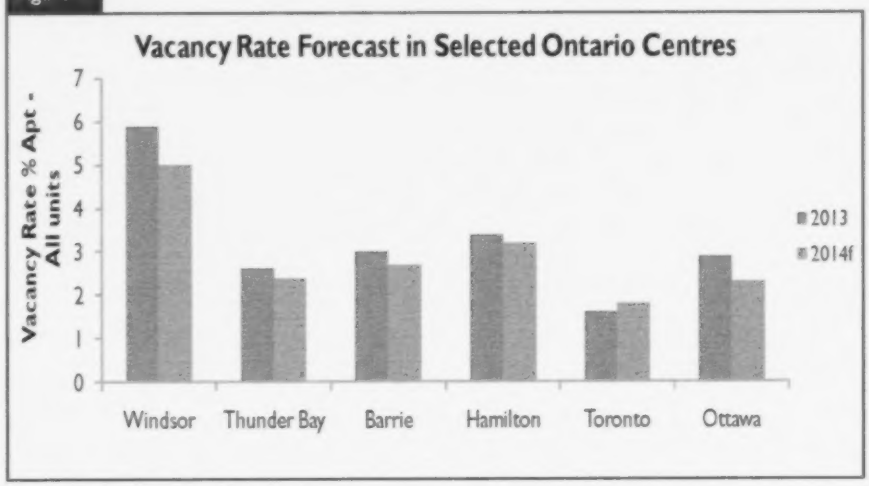


Source: Statistics Canada, CMHC Forecast (f)

Housing Forecasts

- Housing will hold up better in South Western and Northern Ontario communities thanks to support from an ongoing US economic recovery, relatively less expensive housing and an improving migration picture.
- Less expensive housing markets bordering the more expensive Toronto area which include Barrie,

Figure 4



Source: CMHC Forecast (f)

Hamilton and Durham region will benefit most from rising Toronto prices.

- Demand for less expensive rental accommodation will grow faster than demand for ownership housing particularly in Ontario's most expensive ownership markets.
- Ontario rental apartment vacancy rate to trend lower thanks to improving employment, rising mortgage rates and growing demand from maturing echo boomers.

Mortgage Rate Outlook

- Mortgage rates to potentially see gradual and modest increases but will remain low by historical standards. Consistent with a somewhat higher economic growth prospect, interest rates are forecast to register gradual and modest increases by the end of the forecast horizon, ultimately leading to a slight increase in mortgage rates. Nevertheless, this interest rate outlook will continue to support housing market activity over the forecast horizon, as mortgage rates will remain low by historical standards.
- According to CMHC's base case scenario for 2014, the average for the one-year posted mortgage rate is forecast to be within 3.0 per cent to 3.50 per cent, while the average for the five-year posted mortgage rate is anticipated to be within 5.25 per cent to 5.75 per cent. For 2015, the average for the one-year posted mortgage rate is expected to rise and be in the 3.75 per cent to 4.25 per cent range, while the average for the five-year posted mortgage rate is forecast to be within 5.50 per cent to 6.25 per cent.

CMHC—HOME TO CANADIANS

Canada Mortgage and Housing Corporation (CMHC) has been Canada's national housing agency for more than 65 years.

Together with other housing stakeholders, we help ensure that the Canadian housing system remains one of the best in the world. We are committed to helping Canadians access a wide choice of quality, environmentally sustainable and affordable housing solutions that will continue to create vibrant and healthy communities and cities across the country.

For more information, visit our website at www.cmhc.ca or follow us on Twitter, YouTube and Flickr.

You can also reach us by phone at 1-800-668-2642 or by fax at 1-800-245-9274.

Outside Canada call 613-748-2003 or fax to 613-748-2016.

Canada Mortgage and Housing Corporation supports the Government of Canada policy on access to information for people with disabilities. If you wish to obtain this publication in alternative formats, call 1-800-668-2642.

The Market Analysis Centre's (MAC) electronic suite of national standardized products is available for free on CMHC's website. You can view, print, download or subscribe to future editions and get market information e-mailed automatically to you the same day it is released. It's quick and convenient! Go to www.cmhc.ca/housingmarketinformation

For more information on MAC and the wealth of housing market information available to you, visit us today at www.cmhc.ca/housingmarketinformation

To subscribe to priced, printed editions of MAC publications, call 1-800-668-2642.
